

# RADON

IN CLARK COUNTY | TEST YOUR HOME TODAY!

Radon is colorless, odorless and tasteless. The only way to detect it is to

**TEST**

Radon is the primary cause of **LUNG CANCER** for non-smokers

Most **RADON** exposure happens in homes

**1 in 4** homes tested in Nevada have elevated radon levels

**RADON** is a naturally occurring radioactive gas that can seep into your home from the ground, increasing your risk for **LUNG CANCER**. All homes should be tested!

**Radon**  
Education Program

The University of Nevada Extension, Reno Extension and the Nevada Division of Public and Behavioral Health support efforts to encourage all Nevadans to test their homes for radon and mitigate elevated levels of radon.
