## GENERAL FUND REVENUE

Revenues are the money brought in by the county from a variety of taxes and services. The major sources are property tax, consolidated tax, licenses and permits, charges for services and transfers in (which includes various taxing entities).

## GENERAL FUND EXPENDITURE

Expenditures are budgeted to carry out specific program and service objectives. The budget is comprised of three main fund types: governmental, proprietary and fiduciary. Functional areas include judicial, public safety and public works.

Each year the difference between the revenues and the expenditures contribute to changing the end balance (seen below). A higher end balance marks a surplus, and a lower end balance marks a deficit. A deficit is fine, especially if it counteracts a surplus from a previous year.

## GENERAL FUND ENDING BALANCE

Pershing County operated in a surplus five of the seven years between 2010 and 2016. The largest deficit came in 2010, while the largest surplus came in 2015 at \$807,806. Ending balances have grown significantly between 2010 and 2016, going from \$367,385 to \$2.2 million.

### Pershing County Ending Balance

Year	2010	2016
Amount	\$367.4k	\$2.3M

## AD VALOREM

Year	2000	2009	2018
Assessed Valuation	\$221.0M	\$199.3M	\$260.5M

<b>Total Federal Payments</b>	<b>\$257.8M</b>	<b>\$233.5M</b>	<b>\$317.4M</b>

**Ad Valorem** is a tax with an amount based on the value of a transaction or of property, rather than on quantity or intrinsic value. In the state of Nevada, ad valorem most commonly refers to property taxes.

**The Net Proceeds From Mines** is a property tax assessed on minerals mined or produced in Nevada when sold or removed from the state.
