What does that mean?

Payments in Lieu of Taxes are amounts paid by the federal government in replacement of other revenue (such as property tax) that could otherwise be generated. It is to compensate the local communities for potential loss in revenue.

Grazing Districts are where grazing use is apportioned and regulated by the Bureau of Land Management

General Fund Revenue

Revenues are the money brought in by the county from a variety of taxes and services. The major sources are property tax, consolidated tax, licenses and permits, charges for services, and transfers in (which includes various taxing entities).

General Fund Expenditure

Revenues are the money brought in by the county from a variety of taxes and services. The major sources are property tax, consolidated tax, licenses and permits, charges for services, and transfers in (which includes various taxing entities).

Each year the difference between revenues and expenditures contributes to changing the end balance (seen below). A higher end balance marks a surplus and a lower end balance a deficit. A deficit is fine, especially if it counteracts a surplus from a previous year.

General Fund Ending Balance

Lyon County worked in a deficit four out of the seven years between 2010-2016. 2011 and 2016 saw the deficit reach over one million dollars. The largest surplus during this span came in 2013 where it reached \$561,491.
