\$124M

Industry

Federal Government

State Government

Ambulatory Health Care Services

Hospitals

Professional, Scientific, and Technical Services

Imports are goods and services received from outside the county by sending dollars outside the county. The desired state is low imports, because that would indicate self-sufficiency and growth from within. However, imports higher than in-region sales indicate opportunity. IN the end because of availability, regions must rely on imports.

EXPORTS

Top 5 industries with highest exports

Industry

Total Exports

Crop Production

\$128M

Metal Manufacturing

\$115M

State Government

\$111M

Chemical Manufacturing

\$95M

Amusement, Gambling, and Recreation

\$90M

Exports are goods and services sold from the county to regions outside the county for an inflow of dollars into the county. High exports usually signal economic strength, because dollars flow into the community rather than leave it.
