\$45M

Industry

Federal Government

\$24M

Professional, Scientific, and Technical Services

\$24M

State Government

\$21M

Administrative and Support Services

\$10M

Ambulatory Health Care Services

Imports are goods and services received from outside the county by sending dollars outside the county. The desired state is low imports, because that would indicate self-sufficiency and growth from within. However, imports higher than in-region sales indicate opportunity. IN the end because of availability, regions must rely on imports.

EXPORTS

Top 5 industries with highest exports

Industry

Total Exports

Administrative and Support

\$136M

Federal Government

\$66M

Local Government

\$50M

Mining (except Oil and Gas)

\$32M

State Government

\$10M

Exports are goods and services sold from the county to regions outside the county for an inflow of dollars into the county. High exports usually signal economic strength, because dollars flow into the community rather than leave it.
