Technical Services

\$150M

Merchant Wholesalers,
Durable Goods

Imports are goods and services received from outside the county by sending dollars outside the county. The desired state is low imports, because that would indicate self-sufficiency and growth from within. However, imports higher than in-region sales indicate opportunity. IN the end because of availability, regions must rely on imports.

EXPORTS

Top 5 industries with highest exports

\$151M

Exports are goods and services sold from the county to regions outside the county for an inflow of dollars into the county. High exports usually signal economic strength, because dollars flow into the community rather than leave it.
