<u>Total Imports</u>	<u>Industry</u>

Imports are goods and services received from outside a county by sending dollars outside the county. The desired state is low imports, because that would indicate self-sufficiency and inner-growth. However, imports higher than in-region sales indicate opportunity. In the end because of availability, some regions must rely on imports.

EXPORTS

Top 5 Industries

	<u>Industry</u>	<u>Total Exports</u>
	Federal Government	\$4.5B
	State Government	\$3.0B
	Accommodation	\$1.6B
	Merchant Wholesalers, Durable Goods	\$1.3B
	Management of Companies and Enterprises	\$731.6M

Exports are goods and services sold from the county to regions outside the county for an inflow of dollars into the county. High exports usually signals economic strength, because dollars flow into the community rather than leave it.
