College of Agriculture,
Biotechnology & Natural Resources

Demographic Overview

Demographic data describes the size and composition of the population within a Main Street district. Population, age, income and other household characteristics reveal who lives in the area, the wealth distribution and overall residential trends, while race and ethnicity provide insight into the community's diversity. These data points provide a foundational understanding of the community at this time.

General Characteristics

Boulder City (2025)

Population by Race

Boulder City (2025)

- White - 83.7%
- 2+ Races - 9.8%
- Some Other Race - 2.6%
- Asian - 1.8%
- Black - 1.2%
- American Indian - 0.8%
- Pacific Islander - 0.1%

Percentage of Hispanic Origin: 10.6%

Social Characteristics

Social characteristic data provides insight into the lifestyles, behaviors and needs of residents within a Main Street district. Educational attainment and Tapestry Segmentation data highlight household dynamics, workforce skills, and lifestyle and spending patterns. Together, these data points can help to build a better understanding of resident preferences, as well as support inclusive, people-centered planning efforts.

Nevada Economic Assessment Project (NEAP)

Tapestry Segmentation* provides a clear snapshot of community composition by grouping households with shared income, education, housing and lifestyle traits, offering deeper insight than demographics alone.

The data is developed by ESRI, combining U.S. Census information, consumer spending patterns and proprietary research through advanced statistical modeling.

Top 3 Segments by Household Count Boulder City (2025)

Segment	Number of Households	Percent of Households
Dreambelt	2,221	33.5%
Burbs and Beyond	1,650	24.9%
Silver and Gold	1,145	17.3%
Other	1,611	24.3%

Tapestry Segment Definitions

Dreambelt (K5): *Middle-aged Western suburbanites with high rent and home prices*

Burbs and Beyond (K8): *Affluent, aging population in the scenic West*

Silver and Gold (J4): *Warm climates with seasonal vacancies and high net worth professionals*

Other: *Aggregate value of households that fall into any and all Tapestry Segments that are not explicitly listed within the table above*

Industry Overview & Economic Characteristics

Industry and economic data provide insight into the forces shaping a community's business environment and overall economic health. Information on top industries by labor force participation, economic output, imports and exports reveals where jobs are concentrated, which sectors generate the most value, and how the community connects to regional and global markets. Additional indicators such as total businesses, recent business license activity, employment distribution, unemployment rates and countywide visitor spending highlight entrepreneurship, workforce conditions and economic diversity, and offer some insight on the role of tourism. Together, these data points can support informed Main Street revitalization strategies that strengthen existing businesses, attract new investment, and build a more resilient and competitive local economy.

Boulder City / ZIP Codes 89005 and 89006

Category	Direct Visitor Spending	Percent of Total Direct Visitor Spending
Retail	\$10.6B	19.9%
Gaming	\$9.3B	17.5%
Transportation	\$9.0B	17.0%

Unmet Demand for Business & Service Overview

This data illustrates possible unmet demand for businesses and services by comparing the number of identified establishments in each of the defined key categories within the specific community to those present elsewhere in the county overall. By highlighting gaps and business voids, the data identifies areas where local demand may be leaking to surrounding communities. These insights can help Main Street stakeholders prioritize business recruitment, support entrepreneurial opportunities, and guide investment toward services most needed by residents and visitors. Understanding these gaps is essential for strengthening the local economy and creating a more complete and competitive commercial district.

A void analysis was conducted to identify potential unmet demand for specific types of businesses and services in Boulder City, NV, using Clark County as the comparison area. Voids represent business types present elsewhere in the county but not within Boulder City in 2025.

The results show gaps across all six categories analyzed. Boulder City has significant shortages in clothing, big box and health care-related services, with zero or few identified businesses in these sectors. Additional gaps also exist in retail, restaurant and financial services.

Health Care Void Analysis Results

Clark County Locations	4,161
Locations in Boulder City	19
Voids in Boulder City	3,631

The health care category includes businesses such as hospitals, medical centers, home health services, dentists, optometrists, OD Clinics, physicians and surgeons, mental health services and pharmacies.

Restaurant Void Analysis Results

Clark County Locations	4,219
Locations in Boulder City	31
Voids in Boulder City	2,618

The restaurant category includes businesses such as pizza parlors, Italian, Mexican and other restaurant types.

Financial Void Analysis Results

Clark County Locations	3,749
Locations in Boulder City	28
