Biotechnology & Natural Resources

Demographic Overview

Demographic data describes the size and composition of the population within a Main Street district. Population, age, income and other household characteristics reveal who lives in the area, the wealth distribution and overall residential trends, while race and ethnicity provide insight into the community's diversity. These data points provide a foundational understanding of the community at this time.

Nevada Economic Assessment Project (NEAP)

Tapestry Segmentation* provides a clear snapshot of community composition by grouping households with shared income, education, housing and lifestyle traits, offering deeper insight than demographics alone.

The data is developed by ESRI, combining U.S. Census information, consumer spending patterns and proprietary research through advanced statistical modeling.

Top 3 Segments by Household Count Caliente (2025)

Segment	Number of Households	Percent of Households
Small Town Sincerity	415	98.1%
Country Charm	7	1.7%
Rural Resort Dwellers	1	0.2%
Other	0	0.0%

Tapestry Segment Definitions

Small Town Sincerity (I1): *Semirural towns with aging populations and low rental costs*

Country Charm (I7): *Rural, vehicle-dependent areas in the Midwest with an agricultural focus*

Rural Resort Dwellers (I5): *Rural areas with seasonal homes and seniors with skilled jobs*

Other: *Aggregate value of households that fall into any and all Tapestry Segments that are not explicitly listed within the table above*

Industry Overview & Economic Characteristics

Industry and economic data provide insight into the forces shaping a community's business environment and overall economic health. Information on top industries by labor force participation, economic output, imports and exports reveals where jobs are concentrated, which sectors generate the most value, and how the community connects to regional and global markets. Additional indicators such as total businesses, recent business license activity, employment distribution, unemployment rates and countywide visitor spending highlight entrepreneurship, workforce conditions and economic diversity, and offer some insight on the role of tourism. Together, these data points can support informed Main Street revitalization strategies that strengthen existing businesses, attract new investment, and build a more resilient and competitive local economy.

Caliente / ZIP Code 89008

Unmet Demand for Business & Service Overview

This data illustrates possible unmet demand for businesses and services by comparing the number of identified establishments in each of the defined key categories within the specific community to those present elsewhere in the county overall. By highlighting gaps and business voids, the data identifies areas where local demand may be leaking to surrounding communities. These insights can help Main Street stakeholders prioritize business recruitment, support entrepreneurial opportunities, and guide investment toward services most needed by residents and visitors. Understanding these gaps is essential for strengthening the local economy and creating a more complete and competitive commercial district.

A void analysis was conducted to identify potential unmet demand for specific types of businesses and services in Caliente, NV, using Lincoln County as the comparison area. Voids represent business types present elsewhere in the county but not within Caliente in 2025.

The results show gaps across all six categories analyzed for Caliente and two categories for Lincoln County overall. Lincoln County has no identified clothing or big box services. Additionally, Caliente also has a notable shortage in retail-related services, with few identified businesses in this sector. There are also shortages in restaurant, health care, and financial services in Caliente as well.
