

NEVADA MAIN STREET

Eureka Community Snapshot

OVERVIEW

This snapshot provides key data and insights to inform Eureka's local planning while highlighting trends that matter to Nevada's broader growth and policy decisions.

2025

01

Demographic Overview

Summarizes population size, age distribution and growth trends shaping the community.

02

Social Characteristics

Examines education, income and household patterns influencing local stability and opportunity.

03

Industry Overview & Economic Characteristics

Reviews key industries, employment trends and economic drivers supporting the local economy.

04

Unmet Demand for Business & Service Overview

Identifies existing services and gaps presenting opportunities for new local businesses.

Demographic Overview

Demographic data describes the size and composition of the population within a Main Street district. Population, age, income and other household characteristics reveal who lives in the area, the wealth distribution and overall residential trends, while race and ethnicity provide insight into the community's diversity. These data points provide a foundational understanding of the community at this time.

Population by Race

Eureka (2025)

- White - 84.9%
- 2+ Races - 9.4%
- Some Other Race - 3.8%
- American Indian - 1.6%
- Asian - 0.2%
- Black - 0.0%
- Pacific Islander - 0.0%

Percentage of Hispanic Origin: 13.7%

Social Characteristics

Social characteristic data provides insight into the lifestyles, behaviors and needs of residents within a Main Street district. Educational attainment and Tapestry Segmentation data highlight household dynamics, workforce skills, and lifestyle and spending patterns. Together, these data points can help to build a better understanding of resident preferences, as well as support inclusive, people-centered planning efforts.

Nevada Economic Assessment Project (NEAP)

Tapestry Segmentation* provides a clear snapshot of community composition by grouping households with shared income, education, housing and lifestyle traits, offering deeper insight than demographics alone.

The data is developed by ESRI, combining U.S. Census information, consumer spending patterns and proprietary research through advanced statistical modeling.

Top 3 Segments by Household Count Eureka (2025)

Segment	Number of Households	Percent of Households
Rooted Rural	203	100.0%
N/A	-	-
N/A	-	-
Other	0	0.0%

Tapestry Segment Definitions

Rooted Rural (I4): Rural Southern and Appalachian areas with long commutes and stable homeownership

Other: Aggregate value of households that fall into any and all Tapestry Segments that are not explicitly listed within the table above

Industry Overview & Economic Characteristics

Industry and economic data provide insight into the forces shaping a community's business environment and overall economic health. Information on top industries by labor force participation, economic output, imports and exports reveals where jobs are concentrated, which sectors generate the most value, and how the community connects to regional and global markets. Additional indicators such as total businesses, recent business license activity, employment distribution, unemployment rates and countywide visitor spending highlight entrepreneurship, workforce conditions and economic diversity, and offer some insight on the role of tourism. Together, these data points can support informed Main Street revitalization strategies that strengthen existing businesses, attract new investment, and build a more resilient and competitive local economy.

Eureka / ZIP Code 89316

Top 3 Industries by Labor Force Participation—Eureka (2025)

Nevada Economic Assessment Project (NEAP)

Unmet Demand for Business & Service Overview

This data illustrates possible unmet demand for businesses and services by comparing the number of identified establishments in each of the defined key categories within the specific community to those present elsewhere in the county overall. By highlighting gaps and business voids, the data identifies areas where local demand may be leaking to surrounding communities. These insights can help Main Street stakeholders prioritize business recruitment, support entrepreneurial opportunities, and guide investment toward services most needed by residents and visitors. Understanding these gaps is essential for strengthening the local economy and creating a more complete and competitive commercial district.

A void analysis was conducted to identify potential unmet demand for specific types of businesses and services in Eureka, NV, using Eureka County as the comparison area. Voids represent business types present elsewhere in the county but not within Eureka in 2025.

The results show gaps across three categories for Eureka and two categories for Eureka County overall. Eureka County has no existing big box or clothing services throughout the county. Eureka also has significant shortages in financial and retail-related services as well as minor gaps in restaurant services although Eureka is home to the only identified health care service within the entire county.

Health Care Void Analysis Results

Eureka County Locations	1
Locations in Eureka	1
Voids in Eureka	0
